DETAILED ACTION

Response to Amendment

The amendment filed on December 11, 2007, has been entered and acknowledged by the Examiner.

Claims 1-8 are pending in the instant application.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Frank Keegan on January 16, 2008.

The application has been amended as follows:

In the claims:

Cancel claim 4.

Allowable Subject Matter

Claims 1-3 and 5-8 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, the references of the Prior Art of record fail to teach or suggest the combination of the limitations as set forth in claim 1, and

specifically comprising the limitation wherein current conductors partly embedded in the seal of an electric lamp has the portions exposed to the atmosphere outside the lamp provided with means for protection against oxidation and the means for protection against oxidation includes a chromium-boron alloy.

Regarding claims 2-3, claims 2-3 are allowable for the reasons given in claim 1 because of their dependency status from claim 1.

Regarding independent claim 6, the references of the Prior Art of record fail to teach or suggest the combination of the limitations as set forth in claim 6, and specifically comprising the limitation wherein current conductors partly embedded in the seal of an electric lamp has the portions exposed to the atmosphere outside the lamp provided with means for protection against oxidation and the means for protection against oxidation is a coating that is chosen from the group of materials formed by chromium-manganese, chromium-cobalt, chromium-boron alloys.

Regarding independent claim 5, the references of the Prior Art of record fail to teach or suggest the combination of the limitations as set forth in claim 5, and specifically comprising the limitation wherein current conductors partly embedded in the seal of an electric lamp has the portions exposed to the atmosphere outside the lamp provided with means for protection against oxidation and the means for protection against oxidation is a coating that is chosen from the group of materials formed by chromium-manganese, chromium-cobalt, chromium-iron, and chromium-boron alloys and wherein the coating has a layer thickness of at least 1 μm and at most 6 μm .

Regarding independent claim 7, the references of the Prior Art of record fail to teach or suggest the combination of the limitations as set forth in claim 7, and specifically comprising the limitation wherein current conductors are provided with a means for protection against oxidation chosen from the group of materials formed by chromium-manganese, chromium-cobalt, chromium-iron, and chromium-boron alloys, characterized in that the alloy contains 80 to 99 atom percents of chromium.

Regarding claim 8, claim 8 is allowable for the reasons given in claim 7 because of its dependency status from claim 7.

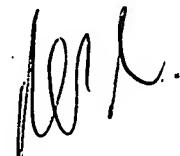

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
